** Scroll of Honour **

Shri Deepak Shikarpur, who is currently, Chairman of the Board of Studies in Information Technology and MIS, in the Faculty of Management, Pune University, has always impressed me as a doyen in the field of Computer Technology and Application and other related activities.

I am indeed amazed by the vision he has shown in keeping himself ahead of others in the field of Computer. He has really a passion for collecting and disseminating every bit of information in Information Technology for the benefit of others.

His contribution in his field of specialization has yielded astonishing findings and I have, therefore, almost fallen in love with this great man.

I have been knowing him for the last 20 years and I am fortunate that he shows special love and affection for me. He is extremely intelligent and fully involved in social activities. He is resourceful and dynamic in the activities of Rotary club. He was President of Shivajinagar Rotary Club.

I have great respect for him for everything that he has been doing and I am quite sure that his knowledge of Management and Computers is going to be valuable asset for our larger society.

Deepakji, you have become successful because you have followed the 'Mantra' of 'Think BIG, Think AHEAD and Think FAST'

(Dr. P. C. Shejwalkar)
Ex-Dean, Faculty of Management &
Professor Emeritus of Commerce and
Management Sciences,
University of Pune.
